The Institution of Engineers (India), Technicians' Chapter of Durgapur Local Centre organized a technical visit at Indian Oil Corporation Ltd (IOCL), Rajbandh Terminal, Burdwan (West) for getting firsthand knowledge of the running terminal and storage depot. In that visit total 28 (twenty eight) members along with Corporate Members took part.

Mr Jaydeb Manna, Dy General Manager (Operations), IOCL, Rajbandh explained about the plant and highlighted the IOCL and said Indian Oil Company belongs to the list of Fortune 500 companies. In its enriching experience of over half a century, it has been efficaciously serving energy needs of the Nation. It has been able to flourish because of its business practices, it ensures that the products that is being used in their processes are of superlative quality. Hence, for that purpose it is engaged into the testing business. It has various in-house testing facilities with state of the art modern technologies. One of them is located in Rajbandh, in West Bengal, which is primarily into the chemical examination of petroleum products. Chemical composition of these products can determine their usefulness and suitability to purpose. the practical operation of terminal and storage deport and said the total storage

HIGH SPEED DIESEL (HSD) - 49936 KL. During the visit Mr. S Sahoo, Assistant Manager, IOCL accompanied with members IEI visited in different sites in Rajbandh Terminal, he also explained that the following activities are belongs to the site:

Tank Truck Operation, Tank Wagon Operation, Product receipt through Pipeline, Product despatch through pipeline to HPCL & BPCL.

The technical visit was a grand success and gave a huge and detailed practical exposure to all the Students and Corporate Members regarding the Chemical, Electrical & Mechanical engineering subjects and also of other related engineering areas like Electronics & Communication engineering.
